March 6, 2018

Good Morning

March has arrived and the first UC Cooperative Extension Tree & Vine IPM Breakfast meeting of the year will be tomorrow, Wednesday March 7. Our IPM breakfast meetings are open to all PCAs and growers in the area who work with tree & vine crops. We meet from 7:00 – 8:00 a.m. on every first and third Wednesday from March through June at the Old Mill Café, 600 9th Street in Modesto. One hour of continuing education credits are offered. We will bring information to help you make pest management decisions; you bring questions, samples, share your experiences and buy your own breakfast!

Our first “guest” speaker will be Kari Arnold, our new pomology advisor who will work primarily with walnuts, grapes, cherries and apricots.

Roger Duncan

Pomology Advisor and Director

UC Cooperative Extension, Stanislaus County
