

**University of California
Advances in Walnut Production Short Course**

Advances in Walnut Production Short Course

November 5-7, 2018
Activities and Recreation Center Ballroom
UC Davis

Plan to join us for this integrated orchard management short course featuring UC faculty, Cooperative Extension specialists and farm advisors, and USDA researchers who will provide an in-depth, comprehensive study of all phases of walnut culture and production.

Sign Up to be Notified

If you would like to be notified when registration is open, sign up to receive an email [HERE](#).

The program is based on the latest information and research and will cover the fundamental principles that form the basis for practical decisions and include Q&A for each session, quality time with instructors and networking opportunities.

Who should attend: New and experienced growers as well as other industry members interested in commercial walnut production.

For more information, see the full agenda [here!](#)
